Fundamentals of Ayurvedic Beauty Care According to Melanie Sachs

At the core of Melanie Sachs's teachings is a comprehensive understanding of Ayurvedic principles, particularly how they relate to skin health and beauty.

The Doshas and Skin Types

Ayurveda classifies individuals into three primary doshas: Vata, Pitta, and Kapha. Each dosha influences skin type and needs:

- Vata: Dry, sensitive, and prone to fine lines. Skin may be rough or flaky.
- Pitta: Oily, prone to inflammation, redness, and acne.
- Kapha: Oily or moist, with a tendency toward dullness, congestion, or puffiness.

Melanie emphasizes assessing one's dominant dosha to tailor skincare routines that balance and harmonize skin health.

The Five Elements and Skin

Ayurveda links the five elements—earth, water, fire, air, and ether—to different skin qualities:

- Earth and water: Associated with stability and moisture; relevant for dry or sensitive skin.
- Fire and air: Linked to transformation and activity; pertinent for oily, inflamed, or acne-prone skin.
- Ether: Represents space; associated with clarity and openness.

Understanding these elements helps in selecting ingredients that restore balance.

Key Principles of Ayurvedic Beauty Care

- Balance Over Suppression: Instead of merely treating symptoms, Melanie advocates restoring natural balance to enhance beauty.
- Holistic Approach: Combining topical application with internal habits.
