The Productivity-Health Dilemma

In the quest for higher productivity, supervisors often grapple with maintaining employee well-being. This tension has become more pronounced during and post-pandemic.

Challenges include:

- Overwork and Burnout: Pressure to meet targets can lead to employee exhaustion and decreased performance.
- Work-Life Balance: Supervisors must promote policies that respect personal boundaries, especially with remote work arrangements.
- Mental Health Support: Recognizing and addressing psychosocial issues requires training and organizational commitment.

Supervisors need to adopt empathetic leadership styles, enforce healthy workloads, and facilitate access to mental health resources.
